

"These 3 guys actually plays modern hard rock with heavy guitars and fine vocal melodies, you quickly find yourself getting hooked to songs like "Back In The Days", "She Goes" or "Cigarette"."

Veglam Magazine, May 2012

"Their sound is a once simple and rather dense, having a very lush atmosphere. Whether this is by design or production, it's an entertaining sound. And it makes the Starfuries sound larger than the street rock sound the wish to portray."

Danger Dog Magazine, June 2012

"The dampened riff to 'Shiver' gets things off to a cooler than cool start, the guitars that then kick in sounding like they come straight from the crotch. The vocals of William Dogboy definitely have more than a touch of the euro accent to them, generally this sort of accent annoys me, but done sleazy in the same way as Hardcore Superstar or D.A.D. it works a treat here. ."

Uber Rock Magazine, June 2012

BIOGRAPHY

As many bands, they rise from the ashes of a dead one in September 2008.. the purpose is simple: do their music, record, perform, sleaze around a lot!

During a very cold November in 2008, the first single "Wash Away" (a ballad) is recorded and followed few months later (in april 2009) by 3 other tracks composing their first EP "96th Street" released on digital by "emmeciesse music publishing".

The sound is rude but also melodic "nu style" hard rock. This cocktail got excellent results on the web.. and smashed bones during the gigs.

On July 2010 BSF record the "Dream Alone", included in the compilation "Sounds of Underground vol1" by volo libero edizioni. This product joins Famous old Dudes & the "new generation" from Milan Underground Street, HR, Punk, Rock Scene.

It's 2011/12 winter.. with guns fully loaded Furies rumble to the studio to record their first album "Rest of the City" composed by 11 brand new tracks that confirm Furies's Style, mixing melodic patterns with powerful rhythmic and riffing.

Many reviews recognize Rest of the City as a notable work, given the positive feedback to the band and the album.

In spring 2014 The Furies were hooked by Jack Rock Agency, join their rooster, and begin to be deeply involved in a new series of nasty unpredictable hot stickys sweet gigs.

On november, on the same year, BSF tour with "Living Dead Lights" in the Baltics...performing in clubs, like Fontaine Palace.

While touring, the guyz start working on their new album, and in the summer of 2015 they storm in the studio and spit out 14 incredible amazing nu tracks for the new album "Vamp in Paradise".

"Vamp in Paradise" Furies's last album was released on september 24th, 2016.

The sound is a powerful, large, concrete, Sleaze Roxx!!! in simple words.. IT ROCKS!!

During september 2016, the Furies go on tour in Russia, performing in Saint Petersburg and Moscow and in the major city of western Russia, such Pskov, Novgorod or Yaroslav .. setting on fire every stage they hit!

The Furies keep going in their global fight to conquer the show buzonezz..

We'll never give Up ! Stay Tuned.
